

Adult Equine Vaccine Recommendations

Vaccine	Frequency	Notes
Flu Rhino Vaccine Herpesviruses (EHV-1 and EHV-4)	Every 6 months. In the event that you are showing/traveling it is recommended to give every 3 months.	
EWT/WN (Eastern, Western, Tetanus, West Nile)	Annual	
CORE (Eastern, Western, Tetanus, West Nile, Rabies)	Annual	This is an option if you want to vaccinate your horse for rabies. This would be in place of the EWT/WN Vaccine, given annually.

Optional Vaccines

Vaccine	Frequency	Notes
Strangles (intranasal)	Every 6 months-12 months.	
Rabies	Annual	

Worming Recommendation/Schedule (Quarterly)

Month	Wormer
January	Panacur (fenbendazole)
April	Equimax or Quest (Ivermectin/ Praziquantel) or (moxidectin)
July	Strongid (Ryrantel pamoate)
October	Equimax or Quest (Ivermectin/ Praziquantel) or (moxidectin)
